

# **Academic Program for Bachelor Degree Candidates in Traffic Infrastructure Engineering**

## **Program overview**

This program will ensure that students become professionals in the field of Traffic infrastructure engineering. The first and second years are almost entirely devoted to expanding one's knowledge of the field. In the third year, the courses are mainly focused on applied science and gaining in-depth knowledge of Traffic infrastructure engineering. In the final year, the focus will lay with the dissertation. The topic for the dissertation is chosen and the associated research plan is written. After the dissertation is approved and subsequently defended, the student will be awarded the title of Bachelor of Engineering.

## **Aim of the program**

The program aims to educate the next generation of Traffic Infrastructure Engineering. Professionals that due to an excellent foundation will have a competitive edge in the Traffic infrastructure engineering field. Through a solid academic basis and a hands-on approach, the student will graduate and hold the Bachelor's degree enabling him or her to work in the Traffic Infrastructure Engineering.
