

Academic Program for Bachelor Degree Candidates in English

Program overview

This program will ensure that students become professionals in the field of English. The first and second years are almost entirely devoted to expanding one's knowledge of the field. In the third year, the courses are mainly focused on applied science and gaining in-depth knowledge of English. In the final year, the focus will lay with the dissertation. The topic for the dissertation is chosen and the associated research plan is written. After the dissertation is approved and subsequently defended, the student will be awarded the title of Bachelor of Arts.

Aim of the program

The program aims to educate the next generation of English professionals that due to an excellent foundation will have a competitive edge in the English field. Through a solid academic basis and a hands-on approach, the student will graduate and hold the Bachelor's degree enabling him or her to work in the fields of diplomacy, foreign trade, foreign-oriented tourism, culture, English language teaching, translation and academic research.
