

Academic Program for Master degree Candidates in Environmental Science and Engineering

Program overview

This program will ensure that students become experts in the field of environmental science and engineering. The first year is almost entirely devoted to expanding one's knowledge of the field. The second-year focusses on deepening the understanding of the field and the topic for the dissertation is chosen and the associated research plan is written. In the third year the student will finish his dissertation and after defending he or she will be awarded the degree of Master of Science in Environmental Science and Engineering.

Aim of the program

To educate the next generation of environmental science and engineering talent that is able to compete with their peers in the global job market. Through extensive training and research practise, the student will graduate and hold the Master's degree, enabling him or her to work in jobs related to environmental management and monitoring in government environmental protection departments, environmental technique development and pollution control work in environmental protection organizations, and teaching or research work in a college or university.

When and how to apply

Applicants can apply starting from December 18th, 2020 till May 31st, 2021. For more information on the documents needed and the application procedure please visit: <http://www.istudy.sdu.edu.cn>.
