

Academic Program for Master Degree Candidates in Imaging and Nuclear Medicine

Program overview

This program will ensure that students become experts in the field of Imaging and Nuclear Medicine. The first year is almost entirely devoted to expanding one's knowledge of the field. The second-year focuses on deepening the understanding of the field and the topic for the dissertation is chosen and the associated research plan is written. In the third year, students will finish their dissertations and after defending, they will be awarded the title of Master of Medicine.

Aim of the program

The program aims to educate the next generation of Imaging and Nuclear Medicine talent to be able to compete with their peers in the global job market. Through extensive training and research practise, the student will graduate and hold the Master's degree enabling him or her to do clinical work and scientific research of MRI, ultrasonic medicine, and interventional radiology.

When and how to apply

Applicants can apply starting from December 20th, 2021 till May 31st, 2022. For more information on the documents needed and the application procedure, please visit: <http://www.istudy.sdu.edu.cn>.
